- **LG's Official Website:** This is the primary source. Navigate to LG's support website, enter your TV's model number (usually found on a sticker on the back or bottom of the TV), and you'll find the relevant manual, often available as a PDF download. This ensures you have the most accurate and up-to-date information for your specific model. Different LG models, such as the LG C2 OLED or LG QNED, may have slightly different manual contents.
- **LG's Support App:** The LG ThinQ app, available on smartphones and tablets, provides access to manuals, troubleshooting guides, and other helpful resources. This app often allows you to search for solutions by describing the problem you're experiencing, making troubleshooting easier.
- **Retailer Websites:** If you purchased your LG TV from a major retailer like Best Buy, Amazon, or Currys, their websites might also host the manual as a downloadable PDF. This is useful if you prefer accessing the manual before your LG TV is delivered.
- **Printed Manual (If Applicable):** Some LG TVs still come with a printed manual. This is a great option for those who prefer a physical copy. However, online manuals are frequently updated, so checking the online version is always recommended.
